

Embedding Technology

In level 3 Maths with applications for GCSE

Teachers attending the workshops **and** other teachers in their departments will:

- Improve confidence in planning and delivering lessons making greater use of technology.
- Contribute to and share in a bank of readymade resources using technology to improve learning.
- Have opportunities to trial resources, plan collaboratively and feedback on activities.
- Can lead PD in their own departments.
- Improve skills in using a variety of technology linked directly to the A-level spec.

This is for all teachers with a KS5 class. Whether a beginner with technology and A-level Maths, or experienced with both. Everyone will share and improve practice.

Previous participants commented on improvements in skills and subject knowledge along with an increased awareness of opportunities to use technology and increased confidence in doing so. Many also noted that their pupils' levels of engagement and understanding were enhanced.

Work Group Lead: Alison Sutch. Level 3 lead at Cheshire and Wirral Hub

Venue: Alsager School, ST7 2HR

<i>Workshop 1</i>	<i>18.11.19</i>	<i>10am-3pm</i>
<i>Workshop 2</i>	<i>3.2.20</i>	<i>10am-3pm</i>
<i>Workshop 3</i>	<i>6.7.20</i>	<i>10am-3pm</i>
